

# RVU's Pursuit of Excellence

# Message from the Vice Chancellor

The RV University (RVU) commenced its academic programmes in three Schools on 20 September 2021. Currently, we are in our second year of operations with six Schools. In a short span of one and a half years, we have tried to create a vibrant academic environment. We have so far hosted four Ramon Magsaysay award winners, two Rhodes scholars, besides instituting a CXO Lecture series. There were many other exciting activities on the campus in the past one and a half years.

We have felt the need to bridge a communication gap between the RVU on the one hand and on the other, our students, their parents, collaborators in the industry, Government, thinktanks and community-based organisations. We are, therefore, starting with a e-Digest which will be circulated over email once in every quarter. In the first issue, we hope to wrap up developments in the last one and a half years and cover various milestones, student and faculty achievements, recognitions and honours. We are acutely aware that it is impossible to exhaust these achievements. As it will be a quarterly issue, we hope to capture them more accurately in the coming quarters and disseminate that information on a regular basis. Through this process, we wish to stay connected with our stakeholders.

The vision of RV University is to be a world-class, tech-driven, global university for liberal education. We wish to provide transformative education and produce next generation leaders who as per RVEI tagline will "Go, Change the World". We sincerely request to all stakeholders to amplify our message through social media and other channels and provide valuable feedback to the RV University. This will certainly help improve our focus and efforts in our pursuit of excellence.
