Message from the Dean

Welcome to the School of Economics and Business at RV University.

The School of Economics and Business is founded on the belief that economics and management education must prepare students not only for careers, but for purposeful leadership in a rapidly changing world. As businesses navigate technological disruption, global interconnectedness, and evolving societal expectations, future leaders require analytical capability, ethical judgement, adaptability, and a strong sense of responsibility.

At SoEB, we foster curiosity, critical thinking, and real-world problem solving through an interdisciplinary curriculum, experiential learning, industry engagement, and global exposure. Our programmes encourage students to connect theory with practice and develop perspectives that extend beyond conventional management education.

With a strong emphasis on innovation, entrepreneurship, sustainability, and responsible leadership, we aim to nurture professionals who are equipped to create meaningful impact across industries and society.

Prof. Madhvi Sethi
Professor and Dean,
School of Economics and Business

Programmes

Faculty
