Message from the Dean

Dear Students and Parents,

Welcome to the School of Liberal Arts and Sciences (SoLAS). We are a multi-disciplinary School educating young minds to excel in their chosen area of specialisations. Our pedagogy is structured to enable our learners to successfully navigate complex realities. We are driven to not only train our students to acquire comprehensive and in- depth knowledge in their areas of specialisation, we also place equal emphasis on acquiring broad and generic skills that will help the learners to creatively engage with complexities of professional and personal contexts. Our trained, experienced and passionate faculty use innovative, immersive and relatable teaching methods to make our classrooms lively and engaging. We expect our graduates to excel in their chosen areas and creatively engage with social, economic, political and ethical issues. Our students are encouraged to conceive careers, in a broader sense, to contribute to the larger good of the society. At our School, we believe education to be a key catalyst in developing capabilities, orientations and skills that will enhance learners' capacity to lead a meaningful and successful life.

Prof. Priya Nair
Dean,
School of Liberal Arts & Sciences
